"The Certificate Program in Urban Sustainability looks like a great opportunity for current and emerging environmental professionals, project managers, and concerned citizens to develop their sustainability skill set. The proposed program has a great mix of sustainability concepts and management / implementation techniques. The instructors are excellent and offer expertise from diverse backgrounds. I strongly encourage this program and have circulated it to the other members of the Jersey City Environmental Commission."

- Gerry Nicolls / Past Chair, Jersey City Environmental Commission

5 Course Tracks - 2 Sessions Each (6 hours for each topic)

Project Planning Concepts and an Overview of Sustainability, Resiliency & Whole Systems Thinking

Emissions and Emissions Reduction Opportunities with Perspectives From Science, Economics and Policy, with a focus on the Roles of Cities in Climate Change

Green Infrastructure, both Citizen Led GI & Developer Perspectives on GI
